

## Meritor Part

Meritor Parts - The Meritor Business is a premier international supplier built upon one hundred years of custom of service and quality. Meritor specializes in integrated systems together with different modules and components to the original machinery makers and aftermarket equipment in the industrial and transportation sectors.

Meritor prides itself in the company's unique energy and feels that this particular energy contributes to their competitive advantage in the international operations. The company values all of their clients and would like to guarantee their success while anticipating their different requirements. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor promotes innovation and collaboration among a team of experienced professionals.

Meritor strongly believes in just employing future focused employees. These top-caliber people can rapidly adapt to changing surroundings and freely demonstrate the level of performance and commitment considered necessary in order to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers all of their employees various opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which include drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of their international engineering workers.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are located all over the globe in 19 countries and in 5 different continents.

The supplier development network is specifically located in order to support new business development. Regional teams are supported by global centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making within each aspect of the trade. The DFSS or likewise known as Design for Six Sigma ensures product reliability within each and every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business methods and apply lean methods.
