

## TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every global industry. Transporting industrial goods occurs each and every day on our industrious world. Initially innovated as industrial vehicles in the 1930s in America, lift trucks gained recognition following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread worldwide.

In 1949, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the business is simply referred to as TCM Corporation. Throughout the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the industry. TCM began building forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With over fifty years of accumulated expertise and technology, TCM has been proudly making many models of industrial lift trucks, making their models known all over the world. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling business.
