

Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory can automatically trigger to both dump and release when the bumper release contacts the side of a dumpster. Once unloading is completed, the hopper can return to original locked and upright position. This piece of machinery also comes along with a cable that enables operation from the seat of the forklift to be able to have the option of manually unloading the hopper. There is a locking chain provided to be able to lock the hopper to the tire truck. This particular product is constructed with reliable and consistent robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish in order to maintain durability.
