

Forklift Spreader Bar

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the biggest independent spreader manufacturer in the world. They are a dedicated maker of spreaders meant for numerous different applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in house by using the newest CAD systems and FEM tools. The ELME company presently employees over one hundred twenty five employees. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks across the world.

The ELME product collection offers spreaders intended for several container and trailer handling operations. A few of their inventory comprise: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes and a wide range of additional parts.

Production and manufacturing of ELME products are developed in highly automated purpose designed factory. In the year 2008, they made 1150 spreaders by way of using quality components in order to ensure reliability and high standards. Major features of ELME consist of design simplicity, market feedback and inventive modular spreader concept.
